To Whom It May Concern:

Natrona County government is in the construction phase of building a new juvenile detention facility here in Natrona County. When it was decided that there was a need for a new facility a search began for an architectural firm to assist us with planning and design. In August of 2008 we selected the firm of Amundsen and Associates of Casper, Wyoming.

I am very pleased with the selection of Amundsen and their work product. Assigned to our project is an individual by the name of Ron Shosh. I have spent countless hours with Ron and his fellow employees in putting together everything we need for today and the future. Shortly after the planning and design phase began my confidence level in Amundsen and Associates increased on a daily basis. They were always in search of information, calling for meetings of stake holders in order to address the needs not only of the county commission and sheriff, but the needs of the public in general when appropriate.

We have a long ways to go before our project will be completed. I am very comfortable in knowing that Amundsen and Associates will be with us to the end.

If I can be of further assistance, please feel free to contact me at anytime.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Benton".
