

CITIZENS FOR A CIVIC AUDITORIUM

August 20, 2013

TO WHOM IT MAY CONCERN:

As a Board Member of the Casper Civic Auditorium, I can speak for our Board and sat we wholeheartedly recommend Amundsen Associates as an architectural firm.

We have worked primarily with Ron Shosh who has a take-charge attitude and subtle-yet-confident approach. These characteristics were immediately embraced by our Casper Civic Auditorium Board of Directors as well as our theater consultant.

During 2012, our firm contracted with Amundsen Associates, and we have seen an overwhelming wealth of knowledge. Ron was instrumental in easing our process with the City of Casper and getting the preliminary drawings preapproved for our project. We are convinced that our achievements are largely a result of Amundsen Associate's efforts. They have gone far beyond the scope of work promised while sticking within our budget. Their worth to our project has far exceeded what we paid them.

Amundsen Associates is not only creative; but possesses the rare skills of being able to communicate their ideas and their associated benefits effectively, which in our case, resulted in a full feasibility study of the Iris Theater. Simply put, they managed the project and got the results promised in their budget proposal. Since we had an excellent experience with Amundsen Associates, we have contracted with them again to do a new feasibility study for a different location.

Please don't hesitate to follow up with me if I can answer any questions about this outstanding architectural firm and their skills.

Sincerely,

Renee Hahn,
Casper Civic Auditorium Board of Directors
