To Whom It May Concern:

It is my pleasure to write this letter of recommendation on behalf of Amundsen Associates. My experience in working with Amundsen has been excellent. They are true professionals who have passion for the delivery of a successful product.

I worked with Amundsen Associates on the Mesa Primary Care and Immediate Care building in Casper, Wyoming. I found their management of the project to be well organized and their supervision to be detailed. They have a unique ability to integrate the program requirements with construction management and most importantly, within budget constraints. Amundsen engaged a hands-on approach to the management of the project,; visiting the site regularly, inspecting for quality, and addressing issues in a timely manner. The result of their work is a beautiful and functional building.

It was truly enjoyable to work with their team and I am more than pleased to recommend Amundsen Associates to any prospective client.

Sincerely,

Ronda Dabney  
Associate Vice-President of Physicians Practices  
Wyoming Medical Center
